The prophecy came true

Let us go after other gods and serve them. Pay attention to Mars and the Lunar nodes

Applying Chapter 24 of Ares Le Mandat in real time

First Prophecy by way of Mars(Predicting Fire from Heaven.) Based on the previous pattern in which the time frame of Mars's position within 30 degrees of the lunar node correlated with the highest concentration of rocket fire from Gaza into Israel in relation to the rest of the year, these new dates for such escalation have been calculated to be from January 15, 2020 to April 3rd 2020. Events falling in line with Mars in this manner in 2020 will be followed by further instructions regarding how an image to Mars can be a cause for justice/peace in Israel.

This video and prediction was made on November 18 2019

The success of this prophecy of fire from heaven in observation of Mars is contingent on the number of rockets fired from Gaza into Israel during any of the months between **January 15, 2020 and April 3rd 2020** exceeding the number of rockets fired during any other month in 2020 as predicted in the video made back in November 2019. The premise is that Mars's position within 30 degrees of the lunar node is an influential factor leading to an escalation in Israel when compared to the rest of the year. Here are previous years correlation of Mars-within-30-degrees-of-the-lunar node to rocket fire escalation relative to the other months for each year.
